### General Remarks.

This township is chiefly prairie the soil  
of which is black & not so sandy as  
is common in this country; and for that  
reason I think it will be more durable  
Timber is scarce, except a strip along the  
Eastern & Western sides & a grove between  
Morgan's prairie & Crooked creek the  
township devoid. The marshes improve  
the township considerably, but they will  
be useful for stock water & grazing grounds

I hereby certify that in pursuance of a  
contract with and instructions from  
Mr. J. Williams Sur. Genl. U. States for the  
States of Ohio Indiana & Mich. Terr. dated  
29<sup>th</sup> March 1834, & in strict conformity to the  
laws of the United States & the instructions  
of said Surveyor Genl. I have surveyed
